

3.9 MW-30JD Mooring Winch

MW-30JD Mooring Winch is single roller, it's mooring positioned by drawing steel wire rope. As a important corollary equipment of Jack-up platform, it can be used of Jack-up platform positioning.

Technical Parameter

Load: 150/300/300kN (first-layer)
Rated Speed: 18/9/4.5m/min(first-layer)
Rope Diameter: ϕ 38mm
cope capacity: 900m
Brake holding: 600kN
Hydraulic System Pressure: 10MPa
Motor Type: YZ280S-4/8/16-H
Power: 56/56/27kW
Rotate Speed: 1415/694/345r/min
Supply Voltage: 380V/50Hz
Working Time: 10/30/5min
Degree of Protection: IP56
