

Basic Parameters Of CP300

Length moulded	60.96m
Breadth moulded	55.78m
Depth moulded	7.62m
Maximum operating water depth	91.4m

1.4 Oil Extraction Platform

The rebuilt Hanggong oil extraction platform bases on the Hang Gong Ping 1 self-elevating work platform which was manufactured by the second engineering company of CHEC Tianjin part construction corporation. The platform is safe, reliable, economical and practical after rebuilding and is easy to repair and operate. It can satisfy the requirement of oil production and other purposes.

Basic Parameters Of Hang Gongping 1 Oil Extraction Platform

Length of the vessel	39.0m
Breadth of the vessel	36.0m
Depth moulded	3.2m
Scantling draft	1.5m

1.5 Liaohe No.2 Oil Extraction Platform

Basic Parameters Of Liaohe No.2 Oil Extraction Platform

Operation depth	0 ~ 9m(subject to the tide level)
Towing draft	2.8m
Capacity of oil storage	1300t
Capacity of treading fluid	300m ³ /d
Handling capacity of natural gas	30000m ³ /d
